**From the Girls at Vintaj.**

While gearing up for the *Bead & Button* show, in Milwaukee, it is refreshing to hear the birds and insects in the trees and be surrounded by the harmonic melody of nature. As so many of our projects and designs are inspired by nature, it clears the mind and makes way for truly creative thought! Be sure to visit us at the show to see lots of new and innovative ways to use Vintaj! We'll also be introducing Issue 3 of our *Finding Yourself* Publication, packed with loads of great information for your business, and two new techniques.

**“There may not be a bigger fan than myself, of Vintaj natural brass findings, pendants, charms, and doodads!**

I started using brass in my jewelry when I saw an ad for Vintaj in *Stringing Magazine*. I was immediately attracted to the intricate details, the “vintage” feeling, the finished pieces of jewelry portrayed, and mostly the chocolate brown color that seemed to go with any color bead.

Brass adds a “modern” twist to vintage jewelry. By pairing the brass with crystals, you get a dressier piece of jewelry. You also can add a little asymmetry to it, and it has a more modern, and casual feel. I love that a lot of Vintaj pieces are inspired from nature. I try to maintain an earthy look to all my jewelry designs, and Vintaj provides me with an endless palette to work with. My favorites, are the charms of turtles, birds, and dragonflies.”
