We held another Creative Session a couple weeks ago and had a blast! We were so excited when we saw Fab Fibers and friends trying new techniques using Vintaj natural brass! Their finished pieces and helpful tips can be found in our [Let's Get Creative](#) post. Host a Vintaj creative session & send us photos of you getting creative- we will post them on the blog!

Happy Designing!

What's New With Vintaj.

EXCITING NEWS: We are pleased to announce that we have recently added a Retailer with 400 stores to our previous list of over 2000 authorized retail locations. This new retailer will carry a limited offering of Vintaj products in Retail packaging priced within our recommended pricing model.

It has always been our goal to offer our product to as many people as possible, enriching their lives as we share inspiration and creativity with the entire beading and crafting communities. As we grow, we are so happy to see this dream being realized.

Why is this good for you? As the amount of stores that carry Vintaj increases, so grows brand awareness. This increase in awareness combined with our advertising efforts means more customers will seek out Vintaj in your store, increasing your sales. Carrying a broad offering of Vintaj products, and staying current with the newest styles gives you the ability to offer just what your customer is looking for. For a special consultation on the products that can help your store be more successful, email our [customer support team](#).
